

Graduation

*From k-8 of all these years, you'll finally get to shed some tears.*

*The greatest gift is to graduate; the day to come is here.*

*We have become the greatest star, who knew that we would come so far?*

*But now the challenge must begin to test just who we are.*

*Now each one must congratulate, but do not make a fail mistake,*

*The freshman years have come to grow; the grades will seal your faith.*

*12<sup>th</sup> grade is what I want to meet, the A's I'll get and always keep,*

*Diplomacy is what I need; but college is what I must defeat.*
