

Music of Life

*Every chance we play for life,
Every chance that we unite
It's our wish to go and fix
The souls that lost their light*

*We play these songs with hopeful facts
That all the spirit people lack
Will rise again and so ascend
To sing and dance and clap*

*Every time that we rehearse
Every time we sing a verse
Of obsession is perfection
In our music first*

*When we play it's from the core
To see the people smile more,
There's no rest forget the stress
Relax and just enjoy*

*When it's time and we perform
Despite the strength of toughest storms
We progress not second guess
We have fun and perform*

*In this band we are alike
We have the music in our sight
It's our wish to go and fix
The souls and give them life*
