

*The road to Gold*

*You see me getting money, and you see me passing classes,  
You see me on the Hollywood block with camera flashes.  
When I started on the road to gold and greater domination,  
I had dreams to make and show the world my great imagination.  
When I traveled through the nations, I fulfilled the obligations,  
And completed application and announced my own creations.  
All the business I created and the friends that I persuaded,  
Gave me money over paid with, all the time that I could make it.  
My fame is off the charts, it exceeds the price of gold,  
It surpasses all the money that the president holds.  
My wealth is so impressive that it gave me recognition,  
And to all my friends my visions are the greatest definition.*
